

Concrete Republic

## BASIN INSTALLATION GUIDE

- 1** Make sure both underneath the basin and bench top are smooth and dust free
- 2** Apply clear silicon around the bottom of the basin and place basin in position, making sure to align the waste hole
- 3** Install waste with rubbers on the bottom and top of waste
- 4** Do not over tighten. Over-tightening will crack basin and void warranty

**Failure to correctly install basins as per these instructions will void the warranty.**
